Gisborne Stroke Support

assists stroke survivors, their families, whānau, friends and carers throughout their stroke journey. They provide rehabilitation, social support programs and information for stroke survivors throughout the Tairāwhiti Region.

Know the signs of stroke.
Think FAST.
Face drooping,
Arm weakness,
Speech difficulty,
Time to call 111.

Although having a stroke can be overwhelming for those affected, many go on to live a normal life. Gains can happen quickly or over time. The most rapid recovery usually occurs during the first three to four months after a stroke, but some stroke survivors continue to recover well into the first and second year post-stroke recovery.

Gisborne Stroke Support believes the survivor's circle of support is core to their recovery. They provide programmes and assistance to the stroke community for free, working closely with the healthcare community to ensure stroke survivors are receiving the professional care they need.

Any donation you make will be invested, protected and grown each year in line with inflation. The surplus investment income will be granted back to **Gisborne Stroke Support** every year, meaning your donation will keep supporting them forever.
